

Contents

Chapter 1 Introduction	1
How to improve your math skills?.....	1
Build a broad knowledge base	1
Improve your reading skills	1
Understand the solutions and the intuition behind the solutions	1
Practice your skills.....	2
Focus on what you do not know	2
How to use this book effectively?	2
Chapter 2 Number Theory.....	3
Number theory basics	3
Multiples and divisors.....	4
Least common multiple (LCM) & greatest common divisor (GCD)	12
Factorials.....	17
Fractions and rational numbers.....	18
Modular arithmetic	20
Sequences	25
Arithmetic sequences.....	25
Geometric Sequences.....	31
Magic squares	33
Chapter 3 Counting	38
Basic principle of counting and permutation	38
Casework	41
Complementary counting.....	42
The principle of overcounting	44
Combinations	48
Pascal's identity and Pascal triangle.....	59
Binomial theorem	61
Union and intersection	64
Chapter 4 General Problem-Solving Skills	71

Analytic skills	71
Logic reasoning	71
Thinking outside the box	76
Application of symmetry	80
The pigeon hole principle	83
Proof by contradiction	86
Problem simplification	88
Induction	92
Chapter 5 Algebra	97
Basics of prealgebra	97
Algebraic identities	101
Functions	108
Absolute value	111
Linear equations	115
Quadratic functions	118
Polynomials and factorization	125
Basics of polynomials	125
General guidelines for factoring polynomials	128
Multivariable polynomials	132
Radicals	133
Chapter 6 Probability and Statistics	136
Basic probability definitions and set operations	136
Symmetry	143
Conditional probability and Bayes' formula	147
Discrete and continuous distributions	159
The basics of statistics	164
Probability/statistics puzzles	170
Chapter 7 Geometry	177
Line and angle	177
Triangles	180
Triangle basics	180

Similarity and congruence	185
Right triangles.....	188
Points of concurrency	193
Basic trigonometric functions.....	199
Quadrilaterals.....	204
Polygons	211
Circle.....	215
Chords, tangents, and secants	216
Power of a point theorem.....	227
Auxiliary lines	230
3D Shapes	235
Prisms and pyramid	235
Cylinders, cones, and spheres	241
Chapter 8 Test-Taking Skills.....	245
Avoid making mistakes	245
Use special cases.....	246
Expand your knowledge	247
Make your life easier	251
Focus on what matters	252
Experiment and make guesses	255
